

Specimen Collection Guidelines - Seminal Fluid

This test will check your sperm count.

Post Vasectomy

1. Collect the seminal fluid by masturbation, directly into the specimen jar – do not use a condom to collect ejaculate as this will effect the results.
2. Screw the lid on container firmly.
3. Label specimen container with your name, date of birth, date and time specimen was produced.
4. Deliver sample to the laboratory as soon as possible.

Fertility

The Fertility Centre (The New Zealand Centre for Reproductive Medicine Ltd), performs semen analyses for Canterbury Health Laboratories.

Semen analyses are done by appointment only.

Please phone for an appointment and collection instructions:

The Fertility Centre
Hiatt Chambers
249 Papanui Road
Christchurch
Phone 03 375 4000 or 0800 433 784
Andrology Laboratory - ext. 749
